4,545

copies, the largest paid circulation of any daily paper in this section.

Not a tempest in a teapot, but a storm over a trolley.

Don't let the Inter-city directors Daley too long, for delays are dangerous.

The Concord Monitor asks: "Has winter finally slid out of the lap of spring?" We hadn't noticed it, up to date.

Fishing and bathing prospects in Berlin pond are not good with that body of water still covered with a thick sheet of ice.

There is a consoling feature of this continued cold weather that it means more pure Vermont maple sugar, mind you, pure Vermont maple sugar.

The Middlebury Register has for the time-being relinquished its grip on the automobile and has tackled the railroad trains, from which it will find less consideration.

A bit ironical that a man named Longboat should win Boston's famed land race, the Marathon run. Long boats go fast on the land as well as on the water apparently.

Jacob Rife left an opening for a great deal of amusement when, in telling of President Roosevelt's rules for young people, he included one to "profit by your mistakes." Yet it's splendid advice.

We regret to note that the playing of the game of Other People's Money has been taken up by the colleges of the country. The university of Wisconsin is the latest, according to the charge, which charge will be investigated. This sport could be included by President Eliot of Harvard among the non-molly-coddle games.

AFFORDING PROPER AMUSEMENT PLACES.

The charge brought against a Barre pool room keeper that he violated the law by permitting young boys to frequent his place recalls to mind the utter lack of amusement places for those boys. As long as the parents of the city do not furnish the desired amusements it is not to be wondered at that the boys take to the public pool and billiard rooms. (This we say without bearing on the merits of the specific case above-mentioned.) The people are clearly derelict in their duty in this matter. The normal boy seeks for amusement after the day's schooling or the day's work is done, and failing to find it anywhere else he goes to the most convenient place which, in most instances, is the public pool room. This is not alone peculiar to Barre, for recently there has been complaint of the same nature in other Vermont cities and towns, notably Bellows Falls and St. Albans. In discussing the trouble the newspapers of the state have generally taken the broad ground that pool and billiard as games are no more harmful than the game of croquet, provided they are played in the best surroundings which view is held by The Times. Opinions as to what are the best surroundings will, of course, differ, but generally speaking such will be found in the Young Men's Christian association, the Young Men's Catholic Union or some form of boys' and young men's clubs.

There is not at the present time, exclusive of the men's clubs, any place in Barre where such amusement is afforded except the public pool and billiard rooms. This is greatly to be deplored, especially when we hear that steps are now under way in Northfield, where the need is not urgent, for the founding of a Y. M. C. A. Purely local and independent boys' clubs have thus far failed of their purpose in Barre. What is needed is a parent root, from which can be gained inspiration and encouragement. The great system of the Y. M. C. A. furnishes such. So does its younger brother, the C. Y. M. U. When next a local attempt is made to found a boys' amusement place of the highest order, and it should not be long delayed, let the movement be identified with some well-grounded parent organization.

BARRE CANDY KITCHEN

OUR ANNIVERSARY

April, 13, 1885, the GRANITE SAVINGS BANK AND TRUST COMPANY first opened its doors for business. Twenty-two years have made marked changes in Barre. The village has become a city. Thrift and industry and growth are visible on every hand. We have grown, too, and in growing we think we are justified in saying that we have contributed something to the healthy growth of Barre.

The banks of any city are an important factor in the commercial activities of that city. They are the clearing houses of business. They care for the funds of the business man, the savings of the wage-earner and thriftily inclined. They extend timely aid to the business man and the manufacturer and lend a helping hand to the home-builder. They are an active factor in the upbuilding of any city. So it has been in Barre, and in the growth of Barre the GRANITE SAVINGS BANK AND TRUST COMPANY has tried to do its part, and the large volume of business that has come to us indicates that we have succeeded.

So much for the past. In the present and in the future we shall strive earnestly to maintain our reputation for STRENGTH, SAFETY and PROGRESSIVENESS, and to do our part to make Barre a "BIGGER and BUSIER" city. We solicit all or a part of your account.
